Setting a budget is important to stay on top of your financial goals and we are here to help! You will want to start by evaluating your debts and bills. Once you have written down all your debts and bills, see if there is a way to cut down on your expenses. Next you will want to find a way to record your income and spending, like a budget binder. Stick to the budget, and once you can, start an emergency saving account. Lastly make a plan to pay off your debt.

If you need help getting control of your debt, stop by to talk to one of our lending officers.
